

FuelMaster Automatic Diesel Nozzle

The Fuelmaster is a high flow automatic diesel nozzle designed to meet the higher capacity fueling requirements at high volume truck stops and terminal operations.

This nozzle has the traditional rear hold open clip that is preferred by many customers

The Fuelmaster has been in continuous production for over 25 years.

The exceptional durability and reliability are the results of many years of innovations and refinements that are incorporated into the current model.

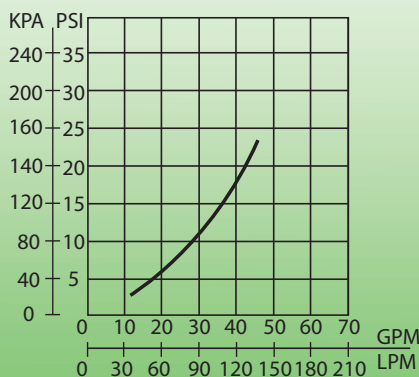

M Carder Performance Advantages

- Micro touch valve for precise flow control
- Roto-matic latch pin for smoother auto shut off
- Pure Teflon stem packing eliminates leaks
- Snap on lever cover
- Super tough nylon handguard and hold open clip
