

MCD & MCDS

Automatic Diesel Nozzle

The MCD is a high flow automatic diesel nozzle. Ideal for the high volume truck stops and for fast refueling at fleet terminal operations

This nozzle has "One Hand" hold open clip with patented Kicker. The "Kicker" is designed to assure the hold open clip will **always** release when automatic shut-off occurs.

The MCDS is equipped with a pressure sensitive valve that only allows the nozzle to open when the pumping system is pressurized. As soon as the pressure drops it will automatically close. Ideal for prepay and card lock locations.

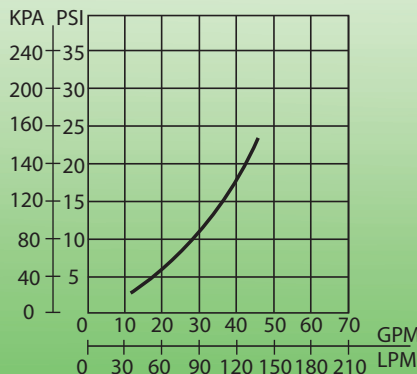

M Carder Performance Advantages

- Super tough nylon Handguard
- Pure Teflon stem packing eliminates leaks
- Roto-matic latch pin for smoother auto shut off
- Kicker assures the hold open clip will **always** release when automatic shut off occurs.

Nozzle Specifications

Inlet: 1" NPT or BSPP
Spout: Aluminum 1- 3/16
Seals: Viton/Nitrile *
Poppet discs: Viton
Packing: Pure Teflon
Weight: 3.7 lbs.
Length: 15.5"
Height: 11 "
Working Pressure: 50 psi max

*Cold climate seals available

For diesel fuel
Gasoline, 10%
Ethanol blend gas
and diesel.

Construction Specifications

Body: High Strength Aluminum
Handguard: Super tough nylon
Hold open Clip: Super tough nylon
Lever: Molded nylon
Body cap: Cap: Zinc
Scuff Guard: Vinyl
Vac. Cap: Molded nylon

Shipping and Packaging

Nozzles are individually boxed and and packed 15 per carton.
Weight: 3.7 lbs. each 59 lbs. per carton.
Bulk packing available: Nozzles are sealed in plastic and packed 250 per master carton.
The MCD & MCDS are rebuildable
